on-site registration at David Lam Auditorium
May 31, 2:30-5:00pm, \$45+GST
Register online at www.spiritheals.ca
or call 250.472.4747.

Dr. Edgar Mitchell, PhD, is the 6th man to walk on the moon and the founder of the Institute for Noetic Sciences where he uses the tools of science to investigate the phenomenon of consciousness. His particular interest is in the application of quantum science to perception, attention and intention.

All who have been in space flight and observed our planet from afar, have to some extent experienced the phenomenon called "The Overview Effect." For me, this meant a sense of unity with all that exists, accompanied by a feeling of ecstasy. It required for me, as one of the first generation of space farers from Earth, to seriously re-examine the ancient questions from this new perspective. The ancient questions are: "Who are we"? "How did this all begin"? Where is it going"? "What is our relationship to the larger cosmos"?

This event is part of an exciting line-up of experiential workshops being held in conjunction with the SpiritHeals Conference.
